1955 FINANCIAL STATISTICS
CANADIAN MUNICIPAL GOVERNMENTS

THIRTY-SEVENTH YEAR OF PUBLICATION - 1956 ISSUE

FOREWORD

The Institute presents herewith *1955 Financial Statistics — Canadian Municipal Governments*. This is the thirty-seventh issue of the "Red Book" and, as in previous years, the aim has been to provide figures that permit comparison between individual municipalities and that are comparable with those given in previous issues.

The publication is issued in loose-leaf form and when completed will give statistics for all urban municipalities with a population over 600 with the exception of those in the Province of Quebec. Due to the difficulty in gathering some of the required information, complete coverage can be provided only for the larger cities in this Province. Other statistics on Quebec municipalities in the Institute's files will be given out on request. Statistics for counties in Ontario and the Maritimes as well as for some rural municipalities in Western Canada are also given.

In the Province of Quebec the fiscal year for school districts ends on June 30th, whereas in most instances the municipal fiscal year coincides with the calendar year. In this issue we have used the school statistics for the year ending June 30, 1955, which were those included in the 1955 issue. The change has the result that in most cases the school fiscal year ends six months before the municipal year, where formerly the school year ended six months after the municipal year. Of late, municipal returns have been received more promptly. Our change in practice will allow us to take advantage of the new situation by publication of Quebec statistics much earlier than was previously possible.

In the Province of Newfoundland the general fiscal year now ends on December 31st instead of March 31st, and this issue includes data for the last nine months of 1954. At the present time the Province of Newfoundland spends eighteen months or more on the auditing and publishing of the municipal statistics for its municipalities on a uniform basis. Until the information is processed more promptly, it will be necessary to present statistics, for Newfoundland municipalities other than St. John's, which will be one year behind the data for other municipalities.

The layout of the material in the current issue is the same as in the last two issues. All suburban and semi-urban municipalities are listed with urban centres in the appropriate category of population groupings: (1) over 10,000, (2) 2,000–10,000, (3) 600–2,000. For each grouping in turn, municipalities in the western provinces are reported first, and then, proceeding eastward, the centres in other provinces are listed. A special page on Newfoundland municipalities is provided for all places except St. John's, which is included with the Maritime centres over 10,000 population. Data on rural and district municipalities, including Ontario counties, is presented in the final three pages.

Many of the statistics given in this publication have already gone out to subscribers in mimeographed form. This rush-release service has been developed to provide subscribers with statistics for the larger municipalities as the information is received and analyzed in advance of publication of the "Red Book." In addition, subscribers are invited to write to the office of the Institute for the latest information in the Institute files. Toronto subscribers may make inquiries by telephone by calling WALNUT 4-9717.

The Institute wishes to express its appreciation of the excellent co-operation received from municipal treasurers and clerks, school treasurers and the provincial governmental departments concerned with municipal and school statistics in the supplying of these data. It also wishes to thank its subscribers for their continued support.

(*S*) Surplus. (*D*) Deficit.

(*a*) As standards used for urban municipalities do not apply, figures have not been put on a per capita basis.

(*b*) Excludes municipalities separate from the county (cities and separated towns).

(*c*) This property is liable for taxation by the township, village or town within whose limits it lies.

(*d*) Levied on the various municipalities within the county and not directly on individuals.

(*e*) As county rates need not be paid until December 20 (after which interest is charged), it frequently happens that a considerable amount of taxes unpaid at December 31 may be paid at a date early in the next year.

(*f*) As far as can be ascertained none of these debts is for public utilities.
